

# The Zero to Gaelic Master Index (2<sup>nd</sup> edition, version 2.5)

Students of Gaelic use different textbooks and this table makes it easier to find similar topics from different books, especially since most of them do not have good indexes. Rows are sorted to match the **Zero to Gaelic** curriculum. Roman numerals stand for volume numbers in multi-volume works. Different books may use different terms for the same thing and this table tries to reconcile them while respecting the individual choices of the authors. Since this table does not cover all the materials in these books a blank box may mean that the topic does not fit here or I simply missed it. *Scottish Gaelic in 12 Weeks* has an excellent index but is here because it is the textbook of **Zero to Gaelic**. Suggestions and corrections are welcome.
